HART'S LAWN GRASS SEEDS For Better Lawns

NEW FOIL PACKAGING. ALSO AVAILABLE IN 25, 50 and 100-LB. BAGS

This is the modern way to buy lawn seed because you can buy a dependable brand with the quality and contents clearly labeled. You'll like the package because it's easier to handle and protects unused seed better. We offer these 4 quality brands in new foil packaging.

HART'S STANDISH PARK (GOLD SEAL) meets the exacting requirements of the State of Connecticut and is fully qualified to bear the State Seal of "Highest Quality." The basic turf grass seeds used are as nearly 100% pure as the most modern cleaning machinery can make them. The lawn resulting from this seed will present an ideal appearance.

HART'S 1634 RED SEAL is rated "Good Quality" under State specifications and contains a higher percentage of quick-growing grasses than the other Seal Blends, although the permanent grasses are in somewhat smaller supply. Highly valuable for late Spring or Summer seeding. Produces excellent turf under adverse conditions.

HART'S ELM TREE LAWN SEED is named for the famous Wethersfield Elm. The mixture though similar to that of the State Seal blends does not contain the percentage of fine bladed grasses. It is rapid growing yet permanent and produces a rich, velvety turf. May be sown at any season, under all conditions.

HART'S SHADY PLACE is a very superior blend of hardy, deep-rooted grasses designed for permanent turf on lawns which have more shade than sun. Will give good results under trees or on the north side of buildings.

We also offer:

EVERGREEN. Satisfactory for the average lawn, but simply does not contain as large a percentage of the finer bladed, more desirable grasses, nor is the purity quite as high as in the State Seal mixtures.

HART'S M-35 MERION FORMULA. A superb blend with Merion Kentucky Blue Grass for a fine velvety lawn.

HART'S FESCUE 100. A blend of the finest and most rugged Fescue grasses designed for a permanent cover for hard-to-grow areas.

HART'S BLUE GRASS 100. A superior blend of nature's Blue Grasses containing the greatest of the grasses, Merion Kentucky Blue.
